

# GET THE WORD

**Level of the game: A2-B1**

**Number of players: 2+**

**Game objective**

to facilitate the memorization of new vocabulary in context.

**What you need**

- as many boards as the number of players,
- two dice,
- instructions

## Rules of the game

1. Print out the instructions, the boards.
2. Each player puts the board in front of him/her.
3. All the players roll the die. The player with the highest number starts the game first.
4. The first player rolls the first die, then the second one. Two numbers on the dice determine the word he/she should make a question with. For example:

number 4 on the first die - look for a word **ACROSS**

number 2 on the second die - look for a word **DOWN**

6. The player makes a question with the indicated word. He/she chooses a person to answer the question and crosses the used word off on his/her board.
7. The next player rolls two dice.
8. If the player rolls the same numbers, he/she loses his/her turn.
9. The winner is the person who crosses out five words in one line: either across, down or diagonally on their board.
